MIDWAY MILE ZERO

Midway is Mile 0 on the Kettle Valley Railway. The Canadian Pacific Railway was officially turned into the Trans Canada Trail in 2000 and Midway is proudly a Gateway Community to the Trans Canada Trail/Spirit of 2010 Trails and a haven for mountain-biking, horseback riding and hiking with easy 2% grades. Easy day-trips can be started from "Mile Zero" of the Kettle Valley Rail Trail at the Kettle River Museum heading west towards Rock Creek, Beaverdell and the Okanagan Valley or heading east on the Columbia & Western Rail Trail towards historic Greenwood, Grand Forks, Christina Lake and the Kootenays. Midway also has many of its own hiking trails within the Village bound-

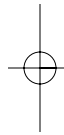

aries, ranging from challenging to leisurely scenic strolls.

This picturesque community has many historical sites as well as numerous recreational centres. Enjoy a stroll along the Kettle River, camp at the scenic Frank Carpenter Memorial Riverfront Park, check out the entwined trees park. Legend has it the trees were joined together by the First Nations from the United States and the Okanagan who camped in Midway as a symbol, "Yet they are separated... but as one" and they tied two trees together.

Midway is a very community-minded town and the townsfolk play an active role.

Through volunteer contributions the town has parks, playgrounds, baseball diamonds, a skating arena, a curling rink, a community centre, public library with community Internet access and a very interesting railway museum.

In May, the Midway Car Club will be hosting their 15th annual "Show & Shine" car and motorcycle show. This event has fast

MIDWAY MILE ZERO

become a popular event with people bringing in vehicles from far and wide.

Midway also celebrates Kettle River Days in July, with this year's event being held on the 15th & 16th. This special fun day focuses on events for everyone both young and old.

Midway's Frank Carpenter Memorial Riverfront Park, located along the scenic Kettle River is a popular attraction for recreational travellers. Camping at the Riverfront Park is fun filled. The popular park host, Steve

Stewart, has become known by recreational travelers for his humor and creativity. Steve focuses on making your stay at Midway's Riverfront Park a pleasant, enjoyable and entertaining one.

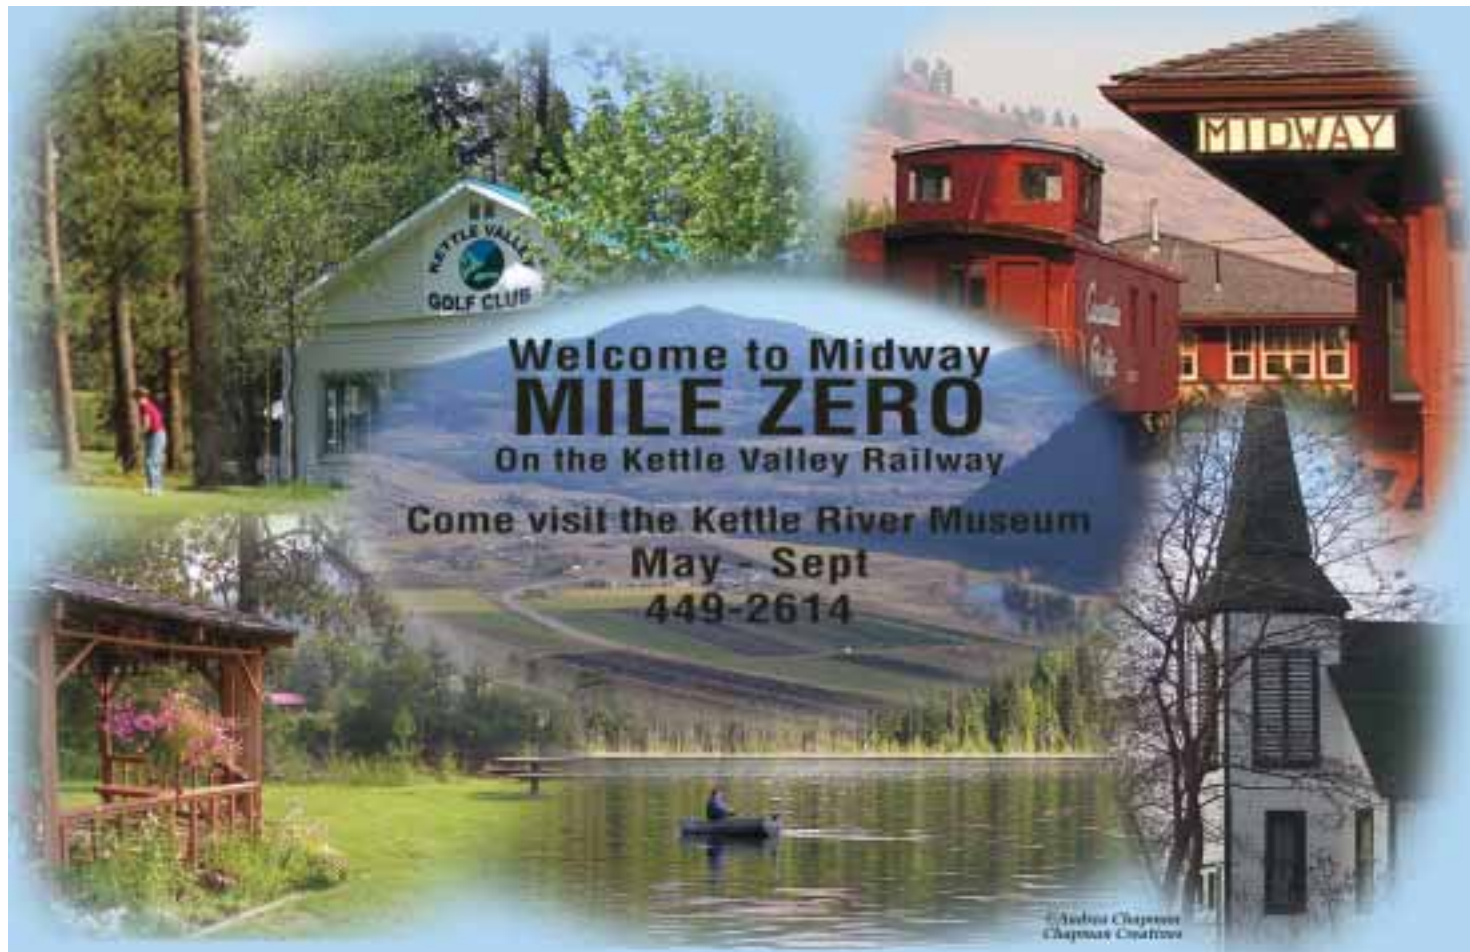

The beautiful Kettle River passes through Midway and is a popular attraction for swimmers and people who like to take a leisurely float down the river on a tube or other floating device on hot summer days.

The Kettle River Museum opens the long

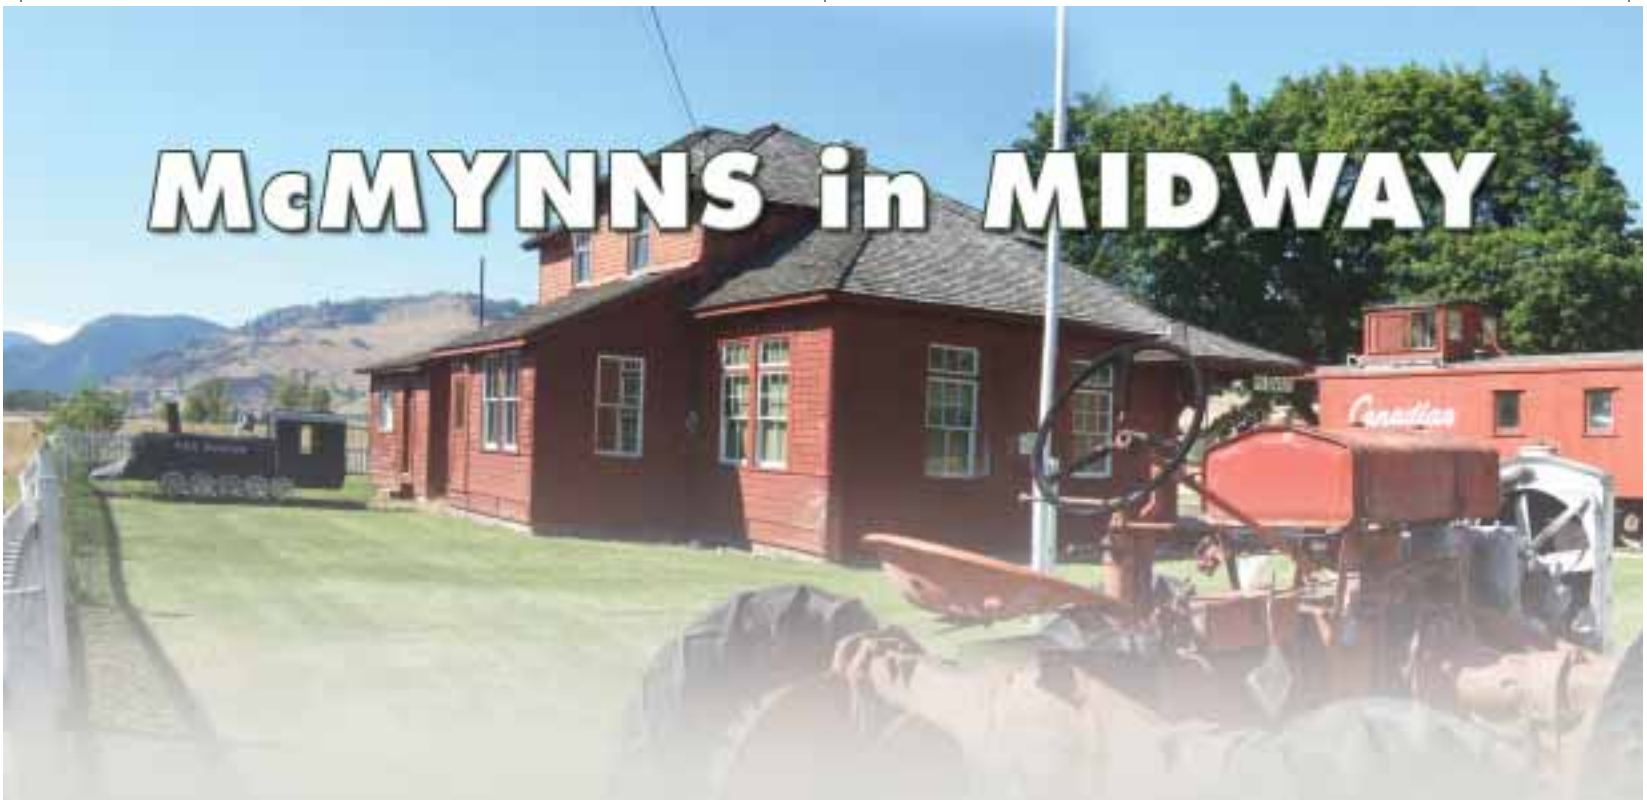

week-end in May and houses many artifacts from the Boundary area as well as railway exhibits and police memorabilia. A must see for any history buffs.

The Midway Public Library has a print collection of approximately 9,000 titles as well as audiotapes, videos and three internet stations.

All in all, Midway is a great place to visit, or even better, to call home. Stop in and see for yourself.

# RHONE MILE 25

## CYCLIST'S REST

<http://www.planet.eon.net/~dan/carmi.html>

The world's longest trail relay was launched on February 19th, 2000, from Tuktoyaktuk, NWT, to commemorate the forming of "The Trans Canada Trail," a name given to the linking of trails that cross Canada to connect the Arctic, Pacific and Atlantic oceans.

throughout British Columbia.

Rhone is located on the Trans Canada Trail at the 25 mile marker from Midway, BC, off Hwy # 33, on Rhone Road just north of Westbridge, BC. The Paul Lautard Cyclist Stop and War Memorial at Rhone was commemorated an official Trans Canada Trail rest stop for the relay. Paul and his dog Stubby started

A vessel of water from each of the Arctic, the Pacific and the Atlantic Oceans was relayed hand over hand by 5000 people. The trail was traveled by persons on snowmobiles, dogsleds, skis, bicycles, rollerblades, horseback and on foot, traversing 16,000 kilometres or 10,000 miles, to unite at the Trans Canada Trail Fountain on September 9th at Hull Quebec across the Rideau River from Ottawa. The Pacific Ocean water vessel arrived in Rhone, BC on April 26, one of the 66 communities and 100 celebration stops

working on this project in 1998. Today it is a FREE stop for cyclists! The stop offers a shelter with picnic tables, water, dutch door outhouse and a newly

constructed caboose built on-site, a replica of the one at the Midway Museum. The Caboose is fully functional with beds, kitchen facilities, a woodstove and finished with Ponderosa Pine paneling, made from a tree off the property that was struck by lightning. It's an ongoing, selfless "labour of love" from the hands of this one man, built with his own funds, on his own

# TRANS CANADA TRAIL FREE RESTSTOP

RHONE MILE 25

land with some help from friends and the loving support of his wife Gloria.

Paul and Stubby's love for visitors is expressed through memorable personal stories and doggie tricks. Visitors are encouraged to make note of their passage by signing the guest book and/or signing their name with a message anywhere on the walls, posts, or rafters of the shelter. This tradition of signing started off with different coloured markers for each year, but with the many visitors making their mark, this

method was eventually abandoned. Paul remembers almost everyone that has passed through his stretch of the trail. "Like that one," as he points to a name, "he's a mechanical engineer at the factory that makes the nails that went into building this place." Another is the woman in a family photo from Folkstone, England. She was a nurse during the time Paul was stationed in Folkstone. There has even been a marriage proposal, it reads "Dwayne Gilbert will you marry me?" Visitors come from every walk of life and from all over the world. In 1998 Paul

counted 628 visitors signatures, in 1999 he had 1,352 visitors, and from 2000 to 2003 there were 1,700 to 2,000 visitors annually. In the six month period just before the forest fire in 2003 that burnt

ONE free rest stop for the human body and ONE warm spirit along the 2010 Trail.

the Kettle Valley Rail trestles in Myra Canyon, he counted an astounding 1,700 visitors.

There are many attractions to peak the interest of those fascinated in articles from yesteryear. There is railroad memorabilia on site, with new pieces being added on a "when found basis," for example the pieces of rail

from the tracks Paul's father drove a speeder car on for 15 years. There are old signs, spikes, locks, tools, and the 28 ton Granite Rock Cenotaph War Memorial that found its place when the D9 Cat hauling it couldn't pull it any further. The Cenotaph has a concrete base that boasts the Canadian flag and a bronze plaque commemorating those family members that have passed on with a canister for ashes on the backside.

Paul Lautard was born on Sept 28, 1932. He's 84 years young and still going strong and each year he does the 10k walk for MS and the 25K Terry Fox Run.

WEST BOUNDARY

# WEST BOUNDARY

The West Boundary encompasses the rural areas from Eholt Summit to Anarchist Summit and from the Canada / U.S. Border to Big White. Within are the populated areas of Sidley Mountain, Christian Valley, Carmi, Anaconda and the unincorporated areas of Rock Creek, Beaverdell, Bridesville and Westbridge. The main industry is forestry followed by ranching and tourism. Tourism is fast tracking the West Boundary with visitors to the many historic sites, trails, recreation, events and festivals. The World Wide Web is rich with hundreds of sites showcasing the area. Our regional site is [www.boundary.bc.ca](http://www.boundary.bc.ca). Summer or winter, make sure you book in at Idabel Lake Resort, Mount Baldy Ski Resort, Jewel Lake Resort or Big White Ski Resort, our key tourist destinations in the West Boundary, not to be missed! There are many lakes and streams in the area, which makes it a must for outdoor enthusiasts. The Kettle River flows from behind Big White down

the Christian Valley to Westbridge, where it meets up with the West Kettle and carries on down through Rock Creek and Midway, where it crosses into the US. The Kettle River is a favorite among locals and tourists alike for a relaxing afternoon of tubing. The Anarchist Mountain (30 minutes east of Osoyoos) boasts more sunshine than any other area in Canada. This area has great investment potential. Sidley Mountain is also home to Miller Springs Bottled Water. Bottled at the source, this pure, natural spring water originates from a mountain spring near Bridesville. When travelling with Air Canada you just might get a chance to quench your thirst with this pure clean water as Miller Springs is an official supplier to Air Canada's commuter services in BC. Mount Baldy has recently been sold and the new owners have completed a master plan for the mountain and the Regional District has devel-

oped an official community plan. Mount Baldy is open for business and there are many investment opportunities in new condos, check out their website. Maybe you like cycling. The Spirit of 2010 Trail follows the Kettle Valley Railroad through the West Boundary to the Okanagan. This is a popular activity that brings in many tourists both nationally and internationally. Guided tours are available. Contact the KVR Bike Trail Transport Co. at [www.kvrbiketrail-passport.com](http://www.kvrbiketrail-passport.com).

Beaverdell boasts the only visitors' hot tub amenities on the Spirit of 2010 / Trans Canada Trail. Complete with public washroom facilities and visitor services for weary cyclists - follow the signs on the Trail. Make sure you spend a night in Beaverdell at one of its many accommodations from RV & camping sites, cabins, B&Bs to hotels. The people and the food are the highlights here. Emergency services are available for all visitors. Beaverdell is

WEST BOUNDARY

also proud of its new fire hall, which was mostly built by volunteers, another indicator of the community spirit in Beaverdell. The community is working on a new all weather road link to Penticton just 40 minutes away, which could make Beaverdell and Carmi bedroom communities of Penticton. Plans for some major residential developments at Carmi are currently underway, which has already started attracting investment from the Big White area. Big White is truly big with more than 15,000 people per day enjoying the mountain during ski season. Big White is the 3rd largest ski resort in Canada and growing. Idabel Lake is just a short drive from Kelowna and has a lodge and rental units. Private lots are on sale, another great investment opportunity. If it's cars you like, check out Thunder Mountain Raceways located just a few minutes away from Idabel Lake on your way in. At the drag strip you can watch world class dragsters and funny cars as well as all other

classes duke it out on their 1/8 mile drag strip. This runs all summer; concessions and camping are available. Thunder Mountain encourages professional and non-professional drivers to come out and check out their ride in a safe and controlled environment. For more information on dates and times of their events, contact Thunder Mountain Raceway at [www.thundermountainraceway.com](http://www.thundermountainraceway.com). Bring your earplugs! Jewel Lake. As the name implies, this is a jewel! Nestled high in the mountains with spectacular views, great hunting and fishing, Jewel Lake is a must for outdoor enthusiasts. Spend the day fishing or canoeing and if you don't feel like cooking, wander over to the Jewel Lake Lodge for a great meal and even greater conversation. Bridesville is home to the Arosa Guest Ranch and the Canyon Creek Ranch with the Cowboy Campfire (see ad). Lind Creek Guest Ranch and Myers Canyon Guest Ranch both offer spectacular vistas and down-home

hospitality and have a string of horses that will cater to any guest's abilities. Kettle Valley Wood Crafts located in Rock Creek specializes in custom-built barn board furniture, which is featured in many of the high-end condos at Big White. The Rock Creek and Boundary Fall Fair and the Sky High Blues Festival in Rock Creek are a must; see their ads. Make sure you check out the events section in this guide for many more events, festivals and activities in the West Boundary, as there is far too many to include here. Consider the West Boundary as your destination! Enjoy your stay and come back again.

# Mt. Baldy

Located on the mountain tops of the Okanagan-Similkameen and Boundary-Kootenay regions of British Columbia, Mt. Baldy is a mountain retreat as yet virtually undiscovered. Known for untracked powder and superb tree skiing and boarding, it offers an authentic winter experience far from the crowds of other ski areas with its relaxed pace, family-friendly atmosphere and down-to-basics simplicity.

Mt. Baldy has one of BC's highest base elevations at 5,665 feet and is assured consistent skiing conditions with an annual snowfall of over 20 feet. Currently it operates on two mountain faces: the southeast face of Mt. Baldy and the west face of Mt. McKinney. The ski area includes the Eagle Double Chair, the McKinney T-bar and a 400 foot Magic Carpet. The Eagle Chair rises 1,293 vertical feet with access to over 400 skiable acres of diverse trails and glades. The McKinney T-bar rises 337 vertical feet with access to beginner and intermediate ski trails.

Whether you ski, snowboard or telemark Mt. Baldy has something for everyone in your

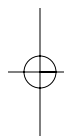

family or group. The Snow Sports Centre is home to the snow school, rental shop and repair shop, and has everything for a great day on the slopes. A range of lessons will teach you the basics of skiing for the first time or how to perfect your snowboarding turns. Choose between group and private lessons and let our enthusiastic instructors show you why they love winter as much as you do.

In addition to downhill pursuits, a variety of other activities including cross country skiing, snowshoeing, tobogganing and Frisbee golf are offered. Cross country ski trails located at the Nordic Centre are groomed and track-set or discover the mountain with an excursion in the forest by snowshoe or cross country skis on 20 km of marked, un-groomed shared trails.

They have started their largest expansion in nearly thirty years by developing the

Sugarlump area with the recent purchase of a new Leitner-Poma quad chairlift for the 2007/2008 winter season. The chairlift, scheduled to be installed on the Sugarlump area in the summer of 2007, will provide access to 131 acres of beginner and intermediate ski trails previously cleared in the summer of 2006. The eight-minute chair ride will carry guests 742 vertical feet or 226 vertical metres up Sugarlump Peak, providing 360 degrees of unsurpassed views.

Experience Mt. Baldy, a hidden gem where the outdoor environment is celebrated, where people are valued and the timeless spirit of skiing and mountain play thrives. Come experience the unique blend of recreational and adventure opportunities without all the line-ups and superficial distractions you'll get in more than enough runs to wear you out.

The Beaverdell Hotel, British Columbia's oldest continuously operated Hotel is located 78 kms south of Kelowna on Hwy 33. Our historic hotel is a popular stopover for cyclists and motorcyclists over the summer months and quickly becoming a popular destination for snow skiing and snowmobile enthusiasts.

You can visit our web site at [www.beaverdellhotel.ca](http://www.beaverdellhotel.ca) for a complete list of events and activities for the year."

# GET BACK TO NATURE AT MT. BALDY

Mt. Baldy is a mountain retreat as yet virtually undiscovered. To locals we are known for untracked powder and superb tree skiing and boarding. To others we are a mountain getaway where the white solitude and stillness are appreciated.

Mt. Baldy offers an authentic winter experience far from the crowds with "...fewer skiers per acre than just about any other western ski hill," says Powder Magazine. Ski or snowboard 1,500 vertical feet of dry Okanagan Powder, explore the forests by snowshoe or cross country skis, or play a round of Frisbee Golf, a mile above the Southern Okanagan Valley floor.

The mountain continues to expand with a Magic Carpet lift, groomed and track-set Nordic trails, and the clearing of the lift line and trails on the Sugarlump area in preparation for a new chair lift in 2007.

Exciting Development opportunities are now available. Become a part of Mt. Baldy's future, and discover the Okanagan's best kept secret for yourself.
